

Subaga Sreepathy

Frontend developer | Graphic designer | UI/UX designer

ABOUT ME

I am Subaga Sreepathy, a front-end developer with a background in graphic and UI/UX design. I specialize in designing apps, websites and graphics that are not only functional, but also aesthetically pleasing. This blend of design and development enables me to craft seamless digital experiences while continuously striving to grow in my field.

EXPERIENCE

UwaVerde | Frontend developer | [Link](#)

08/2025 - Present

- Enhanced the NGO website to be mobile responsive to attract potential partners during the funding phase.
- Leveraged typescript to build the member log-in page with the member-portal page in active development.

Rinteger, India | Graphic designer | [Link](#)

12/2021 - 12/2022

- Designed for 20+ clients on projects including brochures, logos, branding, website banners, and marketing creatives aligned with brand guidelines to boost engagement and sales.
- Developed social media creatives and online ad content for Instagram and websites, driving increased traffic and higher conversion rates.

Maysons, India | Architect

07/2020 - 08/2021

- Worked on design and presentation for various projects, including initial drawings, planning, 3D visualization, and compilation of renders.

PROJECTS

Conference Ticket Generator | [Live Site](#) | [Github](#)

A responsive app that allows the user to fill a form which then generates a customized ticket with user details.

Stack: React Hooks, React Router, Typescript, CSS, Github API

Browser Extension Manager UI | [Live Site](#) | [Github](#)

An extension list where each element can be set to active/inactive states and filtered accordingly.

Stack : React, Vite, JavaScript, CSS

Interactive Rating Component | [Live Site](#) | [Github](#)

A responsive rating component that allows users to submit a number rating, and update the DOM accordingly so as to display the given rating on the thank you page.

Stack: HTML, CSS, JavaScript
